SUMMARY

Diligent graduate student and competent web developer with strong background knowledge in computer science and compelling analytical skills, actively seeking opportunities in web, application and software development.

SKILLS

Programming Languages: C, C++, Java, C#, Shell Scripting (Linux), Python
Web Technologies: HTML, XML, PHP, CSS, Bootstrap, JavaScript, JQuery, AngularJS, Joomla, WordPress
Frameworks: MVC, REST, SOAP, SOA, .NET, CodeIgniter
Software Tools: MS Visual Studio, Eclipse IDE, Adobe Creative Suite (Photoshop, Illustrator, InDesign)

EXPERIENCE

Web Development Intern at Rural Metro Corporation, Scottsdale, AZ   May'15 – Aug'15
- Re-designed the website for Rural/Metro using HTML5, CSS3, JQuery and Bootstrap in Joomla CMS.
- Achieved a clean, modern look and responsive capabilities for accessibility across all devices.
- Structured a sturdy template in the CMS to support both functionality and design requirements.
- Implemented JQuery Vector Maps on the locations page for an improved user experience.

Graphic Designer at Arizona State University, Tempe, AZ   Oct'14 – Aug'15
- Created the marketing material for the Student and Cultural Engagement department of ASU.
- Communicated with various student and staff groups and worked on many projects across the campus.
- Developed both print and web designs for different events using Adobe Creative Suite on an iMac.

Internship at Buddhi Software Technologies Pvt. Ltd., Hyderabad, India   Dec'13 – Apr'14
Implemented specific modules as part of a major e-commerce project - Meal Delivery Service Web Application, working with Java, J2EE, Spring & Hibernate frameworks and MySQL.

Intern at Accendo Technologies Pvt. Ltd., Hyderabad, India   Mar'13 – Apr'13
- Created a portal webpage to generate query/request tickets for the intranet of the organization.
- Implemented a simple mailing technique for faster, convenient access using PHP, HTML and JavaScript.
- Received live hands-on training in Network and Server Deployment for the start-up.

OTHER PROJECTS (find more @ akhileshgoud.me)

Registration process for GlobalcastMD   Worked with: PHP, CodeIgniter
- Upgraded the existing registration process to provide more functionality and better user experience.
- Implemented the shopping cart structure and achieved flexibility for the user registration.
- Included the features like early bird pricing, tiered pricing and product variant pricing (single & multiple).
- Created the product bundles feature which provides bundle suggestions to the user for selected events.

Travel Packages Booking Application   Worked with: C#, .NET, SOA, IIS
- Created a complete e-commerce application to provide users with latest travel packages for a given place.
- Developed SOAP and RESTful web services for individual functionalities and integrated them.
- Implemented authentication and authorization in multiple user levels using session management.

EDUCATION

- **Master of Science in Computer and Information Science (MCIS)** at Southern Arkansas University, Magnolia, AR (Aug'15 – Aug'16 expected), transferred from MCS at Arizona State University (Aug'14 – Aug'15) with a GPA of 4.0
- **Bachelor of Technology** (B.Tech) in Computer Science and Engineering (2010-14) from Jawaharlal Nehru Technological University, Hyderabad, India with a cumulative GPA of 3.36
